Boundary Floor Strips

A new alternative to traditional roll tape

Virtually Indestructible - Colorfast - High Strength Adhesive

Uticom's new Boundary Floor Strips address typical nuclear industry concerns that arise when using traditional roll tape for floor boundaries. Avoid replacing curled, torn, faded, and illegible floor tape by using Uticom's durable alternative.

Subsufacely printed on Lexan® polycarbonate using a thick deposit of solvent based ink, the graphics are protected from surface abrasion and UV fading. Uticom's Boundary Floor Strips will outlast traditional roll tapes by years.

- Designed for indoor or outdoor use.
- Excellent UV resistant properties.
- Guaranteed for 15 years against fading in sunlight.
- Water and weather proof when applied to prepared surfaces.
- Resistant to heavy vehicle and foot traffic.
- High strength permanent acrylic adhesive will adhere to a variety of painted or unfinished surfaces.
- Replaces traditional boundary tape.
- Subsufacely printed with a thick deposit of solvent based ink for longer lasting graphics.
- Stock and custom printed legends are available.

Standard Size: 2" x 30"

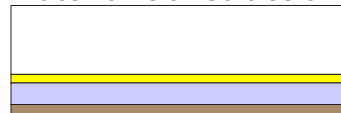

Packaging: 25 per package
